<b>Bloomberg Barclays US Aggregate Bond Index</b>	-0.87%	-1.55%	-0.90%	5.34%

Performance for periods greater than one year are annualized.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. Short term performance in particular, is not a good indication of the fund's future performance and an investment should not be made based solely on returns. The Portfolio imposes a 2% redemption fee on shares held 90 days or less. Performance data does not reflect the redemption fee. If reflected, total returns would be reduced. Performance data current to the most recent month end may be obtained by calling 1-800-960-0188.

Performance as of 09/20/2021 is that of the Predecessor Fund. All of the assets and liabilities of the Predecessor Fund were transferred to the Fund in a reorganization on 09/20/2021.

\*Institutional Class inception date is 9/28/2018. Advisor Class inception date is 5/17/2019. Index since inception returns are as of the Institutional Class Inception date.

*Investment performance reflects fee waivers in effect. In the absence of such waivers, total return would be reduced. The gross and net expense ratios can be found in the most recent Summary Prospectus (9/20/2021). There are contractual fee waivers in effect through 4/30/2022.*

Performance shown prior to the inception of the Advisor Shares reflects the performance of the Institutional Shares and excludes expenses that are not applicable to, and are lower than, those of Advisor Shares. The performance of the Advisor Shares will differ from that of the Institutional Shares due to differences in expenses.

Net expense ratios are: Institutional Class: 0.71% and Advisor Class: 1.06%. Gross expense ratios are: Institutional Class: 4.37% and Advisor Class: 3.50%. The advisor has contractually agreed to waive fees (or reimburse expenses) through 09/28/2021. Investment performance reflects fee waivers in effect. In the absence of such waivers, total return would be reduced.

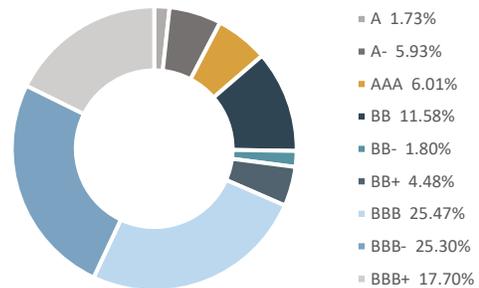

**The Fund's investment objectives, risks, charges, and expenses must be considered carefully before investing. The statutory and summary prospectuses contain this and other important information about the investment company, and it may be obtained by calling 800-960-0188 or visiting [www.partnerselectfunds.com](http://www.partnerselectfunds.com). Read it carefully before investing.**

**Mutual fund investing involves risk. Principal loss is possible. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Investments by the Fund in lower-rated securities presents a greater risk of loss of principal and interest than higher-rated securities. Foreign securities are subject to risks relating to political, social, economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies.**

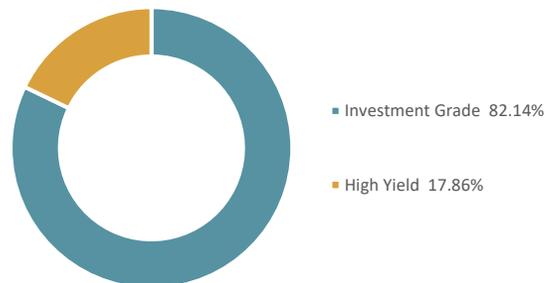

Credit Ratings are grades given to bonds that indicate their credit quality as determined by a Nationally Recognized Statistical Rating Organization ("NRSRO") such as Standard and Poor's, Moody's, and Fitch. The firm evaluates a bond issuer's financial strength, or its ability to pay a bond's principal and interest in a timely fashion. Ratings are expressed as letters ranging from 'AAA', which is the highest grade, to 'D', which is the lowest grade. If NRSRO ratings differ, the security will be considered to have received the highest of those ratings. For securities rated by an NRSRO other than S&P, the Adviser converts that rating to the equivalent S&P rating. Securities not rated by an NRSRO appear in the "Not Rated/Unavailable" category. Ratings are subject to change."

Diversification does not guarantee a profit or protect from loss in a declining market.

It is not possible to invest in an index.

**Bloomberg Barclays U.S. Aggregate Index:** The Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market. The Index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMBS (agency and non-agency).

**Bloomberg Barclays U.S. Intermediate Credit Index:** The Index is the intermediate component of the Bloomberg Barclays U.S. Credit Index. The Bloomberg Barclays U.S. Credit Index measures the investment grade, U.S. dollar-denominated, fixed-rate, taxable, corporate and government – related bond markets. It is composed of the U.S. Corporate Index and a non-corporate component that includes foreign agencies, sovereigns, supranationals, and local authorities.

An investment grade is a rating that indicates that a municipal or corporate bond has a relatively low risk of default.

Duration is a commonly used measure of the potential volatility of the price of a debt security, or the aggregate market value of a portfolio of debt securities, prior to maturity. Securities with a longer duration generally have more volatile prices than securities of comparable quality with a shorter duration.
